

# DISTRIBUTION

The Stark County Weed Board will not hold distribution days as we have in the past. To comply with social distancing landowners will set up an appointment to pick up their chemical. Applications need to be submitted to the office before you schedule your appointment. Appointments begin the week of May 11.

Call the office or go online if you do not receive an application in the mail. Complete your application and send it to the office. Call for an appointment to pick up your chemical.

Applications were mailed May 5.
